

2nd UMaT Biennial International Mining and Mineral Conference

25th to 28th July, 2012

Theme:

"Innovations in Mining and Mineral Processing; Expanding the Frontiers of Mining Technology"

1st Announcement and Call for Papers

OBJECTIVES AND ACTIVITIES

The conference is aimed at engineers, scientists, researchers, students, consultants, business executives and all those who are interested in mining, processing and the environment. The main conference objectives are to:

- * Present new developments, exchange experiences and practices in mining and other engineering disciplines;
- * Discuss environmental and sustainable development issues; and
- * Evaluate the economic impact of the global credit crunch on mining and related services.

The conference will include the following activities:

- * Pre-conference Metso Mining School;
- * Technical sessions and workshops;
- * Poster sessions;
- * Technical visits & post congress excursions;
- * Social programmes;

The conference will also provide:

- * Exhibition opportunities to national/international companies/suppliers and organizations;
- * Awards for best papers and distinguished organisations.

TOPICS

The conference will address the following:

- * Innovations in Mining Technology;
- * Geomatic and Geological Developments;
- * Water and Environmental Issues in Mining;
- * Electrical/Electronic and Computer Engineering;
- * Sustainable Development and Corporate Social Responsibilities;
- * Occupational Health and Safety;
- * Mine to Mill Concept;
- * Advances in Mineral Processing;
- * Mechanical and Materials Engineering;
- * Artisanal and Small-Scale Mining;
- * Salt, Fuel and Energy; and
- * Gender Issues.

DEADLINE FOR ABSTRACTS

Abstracts, not more than 300 words, should be mailed to any of the first two email addresses under **contact details**. The deadline for abstract submission is **15th December, 2011**
